About Guimar Pools

At Guimar Pools, we design and build modern fiberglass pools tailored to the way you live. From concept to completion, our focus is simple: clean design, quality construction, and a smooth, stress-free experience.

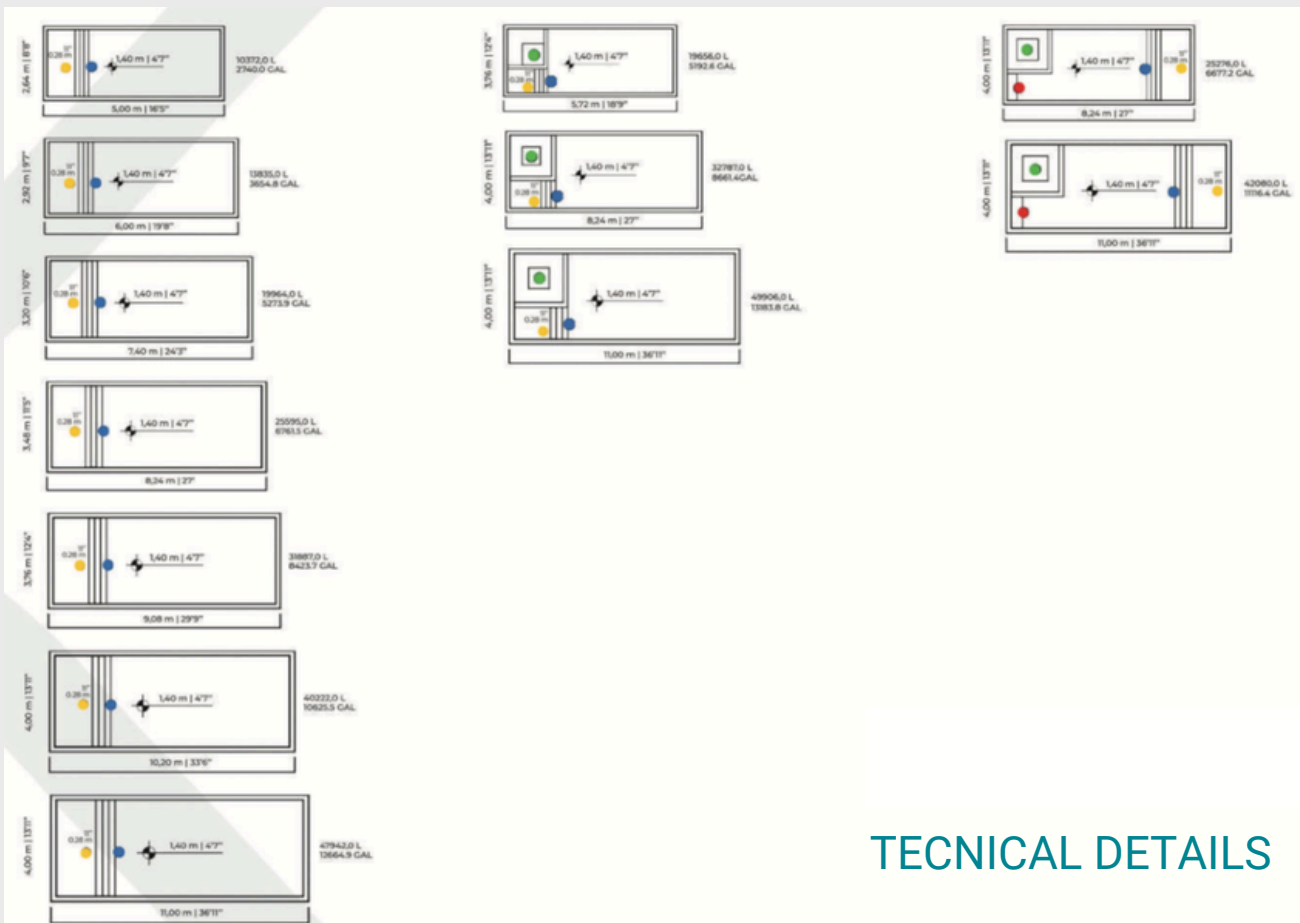

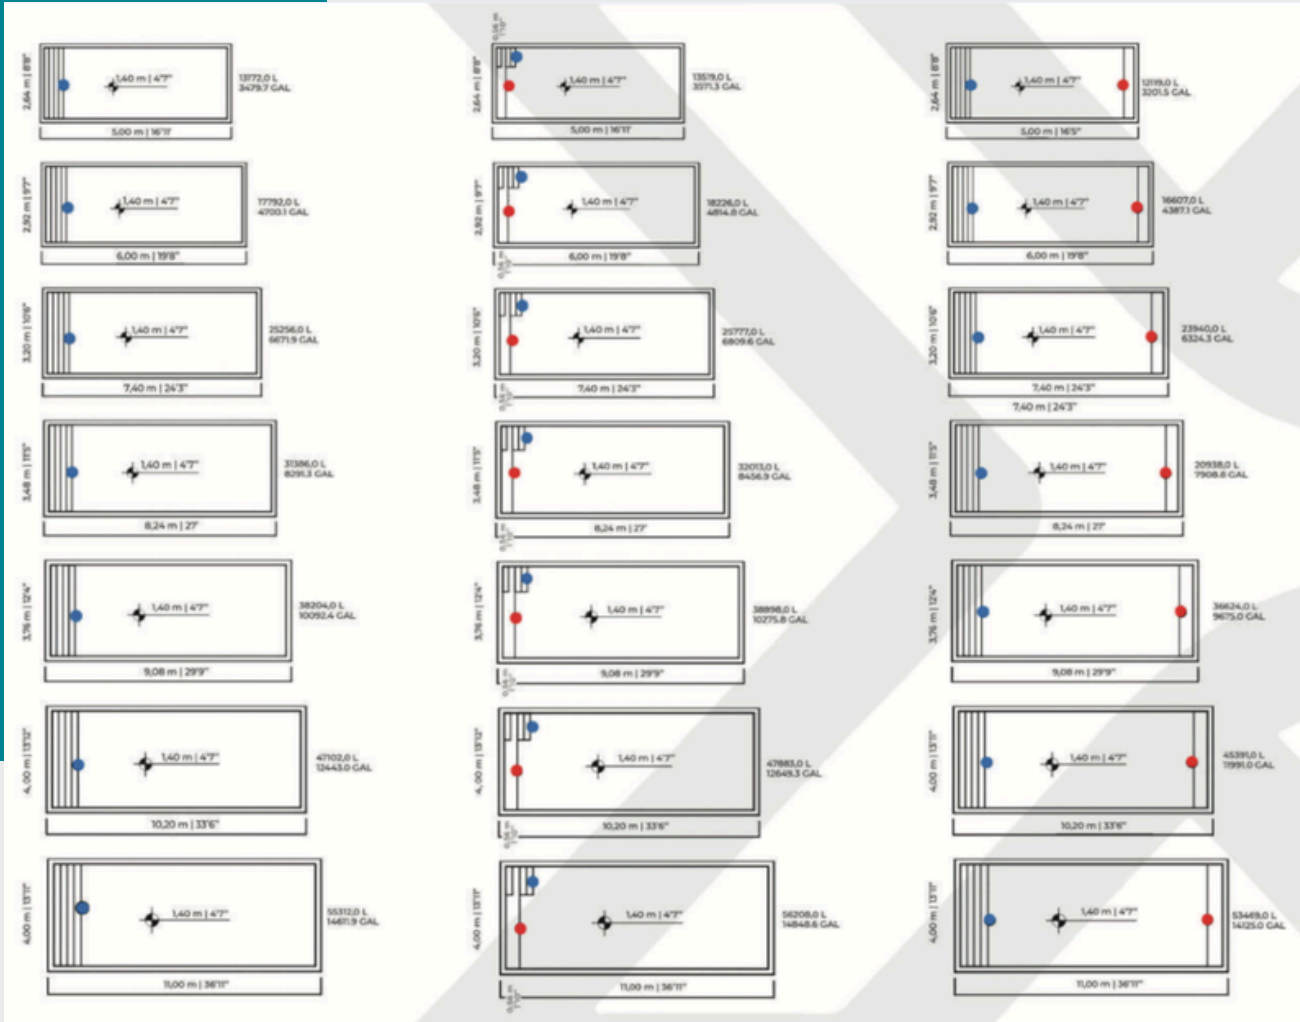

We are a family-owned business with more than 20 years of experience in construction and craftsmanship. Our story began with hands-on building work, where precision, durability, and attention to detail were not optional—they were the standard. Those same values continue to guide every pool we build today.

Based in Tampa, Florida, we proudly serve homeowners throughout the region, designing outdoor spaces that complement modern homes and Florida's lifestyle. We specialize in custom layouts, premium finishes, and efficient installations, delivering pools that elevate outdoor living while maintaining long-term durability and value. Final pricing may vary based on site conditions, access, permits, and overall project complexity.

To ensure structural excellence, we work with X-Pools, an experienced fiberglass shell manufacturer with over 21 years in the industry. Their factory-built shells allow us to deliver consistent quality, faster timelines, and reliable performance—while Guimar Pools manages everything else: design, permitting, installation, and final finish.

The result is a pool that reflects your space, your style, and our commitment to building things the right way.

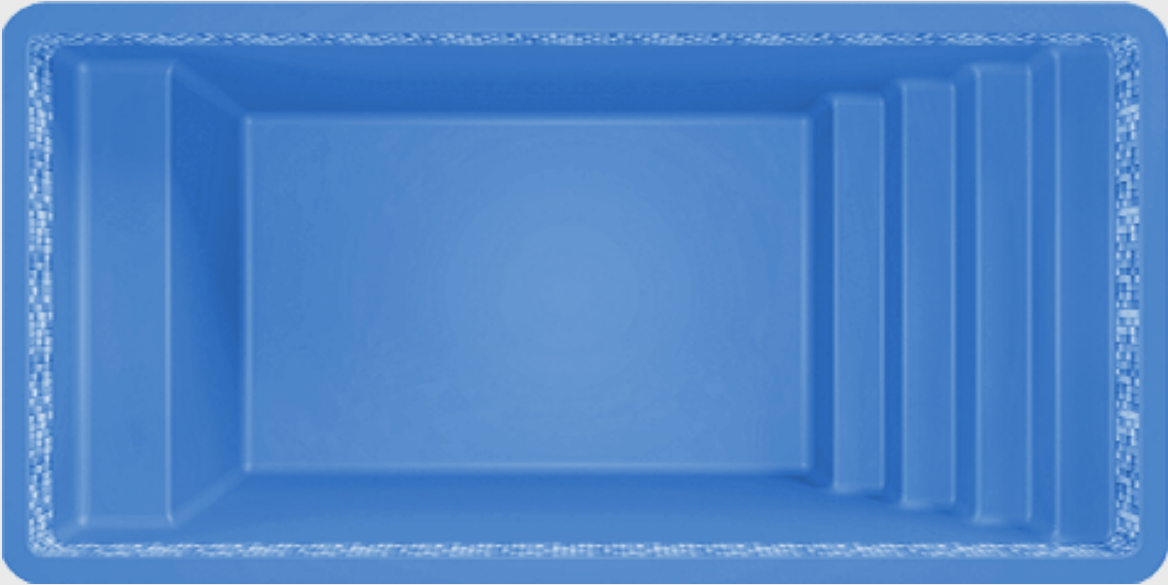

A personalized pool, built with experience, crafted to last.

TECNICAL DETAILS

MIAMI LINE

Best Seller
